

TRISNA RANI SAHA

Research Enthusiast

About Me

I hold a postgraduate in Food Technology and Nutritional Science, with a strong interest in research within the field of nutrition. My primary focus lies in understanding the relationship between nutrition, health, disease prevention, and overall wellness. I am particularly passionate about investigating dietary interventions and their impact on public health outcomes.

With hands-on experience in research and data analysis, I am eager to contribute to contributing to evidence-based strategies that promote healthier dietary habits and improve population health. My long-term goal is to advance scientific knowledge in nutrition and actively support initiatives that enhance public health and well-being.
